Commercial Roller Shades

inpro WTTM

the **story**

At the edge of the Potomac River in Rosslyn, Virginia, Hilton Arlington Rosslyn The Key redefines what a mixed-use development can be—merging modern luxury with thoughtful function. With a combined Hilton hotel and luxury multi-family apartment tower, the property overlooks the nation's capital, Georgetown University, the National Cathedral, and the daily rhythm of crew teams gliding down the water. This project was designed with experience in mind—natural light, sweeping views, and intuitive comfort.

Manual Clutch Shades - 1% Openness

the results

This project is a standout example of how thoughtful design and technical collaboration can elevate both form and function. Inpro WT delivered a shading package that was specified with intent and tailored for context.

In the hotel suites, motorized RTS shades provide intuitive, effortless control—enhancing privacy and comfort while preserving views of the Potomac and skyline. The luxury apartments offer durable, designer-grade manual shades offer long-term performance with finishes that reflect the building's architecture.

obsessed with protecting buildings®

How they look. How they function.
And how they protect the health and safety
of the people who use them every day.

That's why we make hundreds of architectural
products all under one roof and work tirelessly to
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't
have it any other way.
